Subject:	Re: Giant Mine Remediation Project - Claims for Water Compensation - Deadline Extension - MV2007L8-0031
Date:	October-15-19 8:26:43 AM

Shannon,
First of all, thank you and your team for both extending the deadline to file a Claim for Compensation, and (anticipatedly) for accepting this somewhat informal submission.

Stephen Fancott and I submitted a Notification of an Intent to Claim... on August 14, 2019.

As I am limited in my means to email to typing on my cell phone (I am travelling for an extended period), I trust the following suffices for the purpose:

1. File no: DIAND-GIANT MV2019X0007

2. Claimant info: Kris Schlagintweit and Stephen Fancott
Co-owners of sailing vessel "Snow Bunting"
Mailing address: 12 Morrison Drive, Yk, X1A 2H7
Email: krisschlag@gmail.com
stephenfancott@hotmail.com

3.Eligibility
(b)(ii) domestic user, and or
(b)(ix) occupiers of property

Info on nature of use...as previously submitted: 8 months storage and boat maintenance, 4 months of cradle storage (when boat is in water), and lift- in and lift out...all of the above, annually.

Losses and Damages
A. If lift in and out is altered, and if winter boat storage cannot continue as is presently the case: the following assumes a 2-year displacement, while the site is remediated.
1. Lift in and out costs increased due to increased travel distances to waters edge $200 × 4 = $800
2. Disposal of existing cradle and purchase of a trailer suitable for our 27' keel boat= $5000 (note notice of claim stated a trailer is not possible; further research now shows it is.)
3. Storage in Kam Lake area or similar fenced location off- site 2 years × $800 = $1600
TOTAL EST COSTS FOR 2 DISPLACED YEARS = $7,400.00

B. If launching/ lift in-and-out are permanently not possible, losses would be estimated at: the loss of the value of the boat and cradle ($12,000) or the cost to obtain a trailer plus shipping the boat to BC or Ontario to sell it, estimated at $5000 + $7000 = $12,000.

Stephen and I look forward to a fair and timely resolution of this matter, and look forward to Yellowknife's environment being remediated of Giant's legacy.

Please keep us 'in the loop' and please let me know if you need additional information.

Kris Schlagintweit
