Subject: RE: Information Request No. 3: Variation to OA-2021-004-IMP
Date: September 25, 2023 10:49:44 AM

Good morning

My name is Harjot Brar and Esther has transitioned the JMR B-48 well site (WID0448) to me as she is moving into a different role within the company.

In relation to the Indigenous and community consultations, we have reached out to the communities, and they have no issues with rescheduling the post-abandonment gas migration monitoring. They have requested if one of their Guardian employees can accompany Imperial during the monitoring visits in 2024 and 2025. We are working with them to accommodate this request.

With this additional information, I would like to request approval of the term extension request of OA-2021-004-IMP submitted previously by Imperial. Please advise if there are any additional questions.

Thank you for your help and have a nice day.

Harjot Brar, PMP BTECH.

Hi Pauline,

Our department is now overseen by Daniel Lyons (daniel.e.lyons@exxonmobil.com), Imperial's CFO, he is also an officer of the company and would be the contact for any formal OROGO

correspondence.

Regarding the information request, Imperial requests an extension to submit JMRFN related engagement information by end of day October 6th. As Imperial has just determined on September 11th that the site visit cannot be completed, we sent an update via email to JMRFN on September 12th. Given that JMRFN was recently evacuated in August, we would like to provide the community ample time to review the request to postpone the post-abandonment monitoring and meet with us if needed. We have requested a response from JMRFN by September 30th. For clarity, we also notified them in July and offered to meet when we had the initial site visit planned.

Please let me know if an October 6th SIR submission date would be acceptable.

Thanks,

Esther Choi, E.I.T. (she/her)
