Re: Permit Expiry and Final Plan Request for Land Use Permit G05F001

Dear Mr. Bushell,

According to our records, land use Permit **G05F001** expired on **February 24th, 2007**. This is a reminder that in accordance with section 29 of the *Mackenzie Valley Land Use Regulations (MVLUR)*, a Final Plan must be submitted within 60 days of expiry of a land use permit.

Upon expiry of a Land Use Permit, the permittee is required to take the following actions:

29. (1) Subject to subsection (3), every permittee shall, within 60 days after the completion of a land-use operation or the expiration of the permit, whichever occurs first, submit a final plan in duplicate to the Board and, where the land-use operation was carried out on private lands, to the landowner thereof, showing

(a) the lands on which the land-use operation was conducted;

(b) the location of

(i) lines, trails, rights-of-way and cleared areas that were used by the permittee during the land-use operation, specifying those that were cleared by the permittee and those that existed before the operation began,

(ii) buildings, structures, campsites, air landing strips, air navigation aids, fuel and supply storage sites, waste disposal sites, excavations and other works and places that were constructed or used by the permittee in the land-use operation, and

(iii) bridges, dams, ditches, railroads, roads, transmission lines, pipelines, survey lines, monuments, air landing strips,

watercourses, traplines and cabins and all other features or works that were affected by the land-use operation; and

(c) calculations of the area of the lands used in the land-use operation.

(2) A final plan submitted pursuant to subsection (1) shall be

(a) certified by the permittee, or by an agent of the permittee, as to the accuracy of

(i) locations, distances and areas, and

(ii) the representation of the land-use operation; or

(b) drawn from and accompanied by a detailed site survey, an aerial photograph or an image created using satellite or other imaging technology, showing the lands on which the land-use operation was conducted.

Once Final Plans have been received and processed, the GLWB will be able to issue a Letter of Clearance, thereby closing the Land Use Permit.

Should you wish, you may choose to apply for a new Land Use Permit under the MVLUR. A description of the application process may be found on our website (www.glwb.com) or can be obtained from our office.

If you have any questions regarding this letter, please contact me at (867) 777-4954 ext. 3, or by email at amacdonald@glwb.com.

Yours sincerely,

Alec Sandra Macdonald
