Re: Land Use Permit Application G08H004 – Gwich'in Tribal Council – Fuel Storage Sites – 10.4 km Southeast of Inuvik, NT

Upon review of the Land Use Permit Application for the Gwich'in Tribal Council's fuel storage in support of the Wellness Center in the GSA, the Gwich'in Renewable Resource Board (GRRB) recommends approval of the application, provided the following conditions are met:

- The spill contingency plan will be available on site.
- Spill kits will be located on fuel trucks and drip pans will be used during fuel transfer.
- Fuel cache will consist of secondary containment with 110% storage capacity.
- DFO approved screens will be placed on all water intake pipes to prevent the uptake of fish.
- All equipment will be cleaned prior to initial use to prevent the spread of invasive vegetation species.

If you require any other information, please contact us at (867) 777-6615 or nicolelights@grrb.nt.ca .

Sincerely,

Nicole Lights
