Re: Issuance of Land Use Permit G12Q002 - Quarrying (excavate and remove pit run at Frog Creek, km 126 Dempster Highway as per application dated March 30, 2012)

Mr. Van Loon,

The Gwich'in Land and Water Board has approved land use permit G12Q002 for the period between April 16, 2012 and April 30, 2013.

Attached is a copy of Land Use Permit No. G12Q002 granted to the Charter Community of Tsiigehtchic. The original has been filed in the Registry, and a copy placed in the Public Registry, at the GLWB office in Inuvik, NT.

A valid access authorization from the Gwich'in Tribal Council (GTC) Lands and Resources department is a prerequisite for this land use permit to be valid.

Please note that within 60 days of completion of the land use operation or the expiry of the land use permit, whichever comes first, a final plan has to be submitted to the Board and to GTC Lands and Resources that shows:

- (a) the lands on which the land-use operation was conducted;
- (b) the location of
 - (i) lines, trails, rights-of-way and cleared areas that were used by the permittee during the land-use operation, specifying those that were cleared by the permittee and those that existed before the operation began,
 - (ii) buildings, structures, campsites, air landing strips, air navigation aids, fuel and supply storage sites, waste disposal sites, excavations and other works and places that were constructed or used by the permittee in the land-use operation, and
 - (iii) bridges, dams, ditches, railroads, roads, transmission lines, pipelines, survey lines, monuments, air landing strips, watercourses, traplines and cabins and all other features or works that were affected by the land-use operation; and
- (c) calculations of the area of the lands used in the land-use operation.

The plan shall be:

- (a) certified by the permittee, or by an agent of the permittee, as to the accuracy of
 - (i) locations, distances and areas, and
 - (ii) the representation of the land-use operation; or
- (b) drawn from and accompanied by positive prints of vertical aerial photographs, aerial photomosaics or a legal survey showing the lands on which the land-use operation was conducted.

If you have any questions please contact Helga Harlander at (867) 777-7963 or h_harlander@glwb.com.

Sincerely,

Paul Sullivan, Chair
