STAFF REPORT

Prepared by Helga Harlander April 5, 2013

Application #	G12Q002 - Extension	Type	Type 'A' Land Use Permit
Activity	Quarrying		
Location	km 126 Dempster Highway, Frog Creek		
Proponent	Charter Community of Tsiigehtchic		

The Charter Community of Tsiigehtchic was granted a land use permit for quarrying at Frog Creek in April 2012 for a one year period. They have now applied for a two year extension to the permit.

GTC Lands and Resources has no objections to the extension of the permit. Mardy asked that the GLWB point out to the Charter Community that they have to get a quarry authorization from GTC before they can excavate any material at Frog Creek.

AANDC has no objections to the extension of the permit. The inspector mentioned that the Charter Community had not informed him 48 hours prior to starting work in 2008.

Recommendations

- Grant the extension request by the Charter Community of Tsiigehtchic.
- Extend land use permit G08J003 for a two year period (new expiry date April 30, 2015).
- Remind the Charter Community that the land use permit is only valid if they have a valid quarry authorization from GTC Lands and Resources.
- Remind the Charter Community to contact the inspector and GTC Lands and Resources at least 48 hours before doing any work under the land use permit.
