Re: Extension of Land Use Permit G13H004 – James Creek Highway Maintenance Camp

Mr Vashishtha,

The Gwich'in Land and Water Board met on September 14, 2018 to consider your request to extend Land Use permit G13H004 for a two-year period.

The Board has approved this extension and provides the following directions:

- The GNWT Department of Infrastructure (GNWT INF) is to continue monitoring water quality at James Creek, per the 2013 issuance of G13H004;
- GNWT INF is to continue groundwater monitoring until onsite remediation work has been completed, per the 2013 issuance of G13H004;
- Within 60 days of this issuance, the GNWT INF is to submit to the Board for approval one of the following:
 - a) a plan for the removal of the contaminated soil that currently stored in the James Creek landfarm; or
 - b) an operations and maintenance plan for the landfarm cells
- Within 60 days of this issuance, the GNWT INF is to submit to the Board an update on the plans for the remediation and closure of the James Creek highway maintenance camp.

The new expiry date of G13H004 is **August 11, 2020**. The existing terms and conditions of the permit will continue to apply. GNWT INF's full compliance is anticipated and appreciated.

Should you have questions regarding this decision, please contact AlecSandra Macdonald by email at amacdonald@glwb.com or by phone at (867) 777-4954.

Sincerely,

A handwritten signature in black ink, appearing to read 'Elizabeth Wright', written in a cursive style.

Elizabeth Wright
Chair, Gwich'in Land and Water Board
