

May 9, 2014 – prepared by Helga Harlander

Note to File

Chief William Koe phoned at approx. 13:05 to inform the board that the Tetlit Gwich'in Council does not have objections to the activities proposed in land use permit application G14E002. He requested that the board include conditions in the permit regarding quarrying and restoration (e.g. re-contouring etc.) of the land use area, to ensure that there won't be any negative impacts to the land and water.
