Dear Mr. Charlie,

Re: Fuel Storage Land Use Permit at Gwich'in Wellness Camp – G15H001

The Gwich'in Land and Water Board recently approved (May 7, 2015) a Land Use Permit for fuel storage at the Gwich'in Wellness Camp, located south of Inuvik. Please be advised that the scope of the permit only included the storage of fuel. There were no Terms and Conditions included pertaining to transportation and delivery of the fuel to the camp or the means of transfer of the fuel to the storage containers. Please be advised that an amendment to the Land Use Permit will be required in order to include these latter activities within the scope of the permit.

There are no application fees for the submission of an amendment application. As part of the application package for a permit amendment, you must provide the following information in accordance with 26(2) of the Mackenzie Valley Land Use Regulations:

1. The condition(s) that you wish to amend; (we propose to add the following four conditions: Portable Ramps; Off-road Vehicle Travel; Vehicle Travel; Vehicle Movement Freeze-up)
2. The nature of the amendment; (to alter the scope of activity to include transfer of fuel)
3. The reasons for the amendment; (to ensure all applicable land use activities required by the permit are included)
4. Updates to any plans that may be affected by the amendment (no updates required)
5. An engagement plan (the GLWB will waive the requirement for engagement).

Thank you for your attention to this matter. Please contact me at bonnie.bergsma@slwb.com or (867) 598-2413 ext 227 if you have any questions.

Sincerely,

Bonnie Bergsma
