Fuel Storage	A			
Matters not Inconsistent	U			

**Explanatory Remarks -**

Km 251:

It was observed that no material has been removed since last inspection dated January 02, 2018, Please be advised that materials quarried are not to be stockpiled on site as this is a multi user pit, although you have a temporary stock piling clause under Part "A" Scope of Permit(1) please be reminded that this is to ensure that you continually remove the material from the site.

Please note that your application was for 5000 cubic meters and quarry permit No. 2018QP0001 was issued on November 06, 2017 for the amount of 5000 cubic meters. The Pre and Post data for this work was received on January 30, 2018 and indicated an overage of 1788 cubic meters.

Please ensure that payment for the overages are made as soon as possible to the GNWT and that the material are being removed from site.

Date:	January 30, 2018	Permit #:	G16Q004	Page No:	1
