**Re: Request for Additional Information – Application G18Q004
(Quarrying, km 147 Dempster Highway # 8)**

Mr. Hossain,

The Gwich'in Land and Water Board (GLWB) met on October 30, 2018 to consider the above Application for quarrying at km 147, Dempster highway # 8. The Board has determined that pursuant to paragraph 22(2)(b) of the Mackenzie Valley Land Use Regulations, further study needs to be conducted on this Land Use Permit Application.

Specifically, the Board requires further information on spill contingency planning, sediment and erosion control, and any other mitigation measures that support GNWT Department of Infrastructure's plan to perform quarrying activities within 100m of the Ordinary High-Water Mark of watercourses. The Board has directed Board Staff to hold a meeting to bring together interested parties to discuss issues that have been raised during the review of the LUP application. An agenda for the meeting outlining the specific points to be addressed will be circulated prior to the meeting date.

Please submit to the Board, for review and approval:

1. An Updated **Quarry Operations Plan**
2. An updated **Spill Contingency Plan**; and
3. A **Sediment and Erosion Control Plan** that clearly describes the best management practices that INF intends to employ in order to mitigate the potential for erosion and sedimentation into the adjacent waterbodies

The GLWB will continue to process your application upon receipt of these documents and minutes from the above noted meeting.

Should you have questions regarding this letter, please contact AlecSandra Macdonald by email at amacdonald@glwb.com or by phone at (867) 777-4954.

Sincerely,

A handwritten signature in black ink, appearing to read 'Elizabeth Wright', written in a cursive style.

Elizabeth Wright,
Chair, Gwich'in Land and Water Board

CC: Dan Carmichael – Superintendent – GNWT Department of Lands, Beaufort Delta Region
Steven Charlie – Director – Gwich'in Tribal Council Department of Lands and Resources
