Mr. Jahangir Hossain:

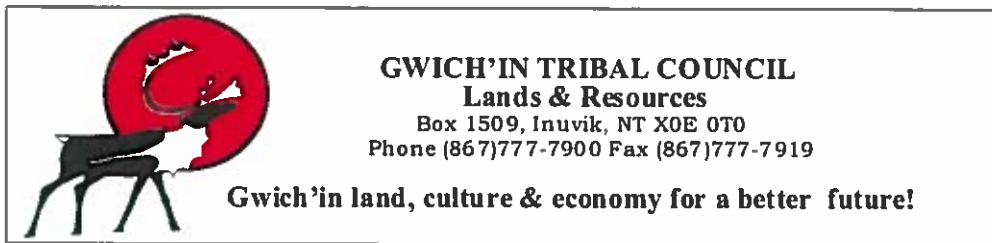

Issuance Letter – Authorization GTC18Q002–Quarry, Access Permit for KM147, Quarrying for Highway Reconstruction, Operations and Maintenance Work, Storage.

The Gwich'in Tribal Council (GTC), Lands and Resources approved your application for the extraction, crushing, stockpiling, staging, and hauling of 50,000m³ pit run materials annually for highway reconstruction, operations and maintenance near Km 147 of the Dempster Highway work between now and August 31st, 2023.

Please be advised there is no way of knowing if the requested amount (250 000 m3) is within the working face of the pit without a geotechnical survey. It is required of DOI, the Authorization Holder, to ensure and report to the Dept. of Lands quantities, quality of shale, and estimated volumes remaining as per term of authorization.

Please note that conditions of Authorization GTC18Q002 require:

1. Notification to GTC Lands and Resources Department prior to commencing quarrying activities;
2. Completion of pre and post surveys;
3. Submission of bi-weekly haul report (form attached)
4. Submission of a final report within two (2) months of the completion date of the Quarrying Activities.
5. Any GTC inspections will be invoiced to DOI to cover inspection fees as required.

Please be advised that it is your responsibility to obtain any approvals, permits or licenses that may be required from other agencies.

As this will be for quarrying activities/operations and for storage of granular material this Authorization will include the administration, quarrying, and annual rental fees for storage on one Authorization.

Please don't hesitate to contact me if you have any questions regarding this letter.

Sincerely,

Stephen Charlie, Director Lands & Resources
