REGISTER: N7L3-0570

To: Distribution
From: Sarah McKenzie
Regulatory Coordinator
NWT Water Board

Subject: Hamlet of Aklavik – Municipal Water Licence Renewal Application

Enclosed are relevant documents required to perform a technical review for the municipal licence renewal for the Hamlet of Aklavik. These documents include the Schedule III Application, the 2009 Background Report, the 2007 & 2008 INAC Inspector's reports and draft Water Licence N7L3-0570. Historical licences, applications, reports, inspections, etc. are available on the NWTWB Registry at http://www.nwtwb.com/html/0570_-_aklavik_registry.html.

Would you please review the water licence renewal application, draft Water Licence, and supporting documentation and provide comments that should be considered for licence renewal.

Please note that the NWTWB-issued Aklavik Municipal Water Licence deals only with the disposal of Waste for municipal undertakings. Due to the physical location of the facilities, the withdrawal of water in Aklavik is regulated by the Gwich'in Land and Water Board. Therefore there are two separate water licences issued to the Hamlet of Aklavik.

Please provide your comments on or before **June 10th, 2009**. If no response is received by the due date, we will assume that you have no specific concerns and that the licence may proceed through the regulatory process.

If you have any questions, or if additional information is required, please contact myself, Sarah McKenzie, or Mike Harlow, NWTWB Executive Director at (867) 678-8609 (email harlowm@nwtwb.com).

Sincerely,

Sarah McKenzie
