Re: G99L3-003 Hamlet of Aklavik Water Licence Renewal

The Gwich'in Renewable Resource Board (GRRB) is supportive of the proposed water licence renewal provided that the following recommendations be sent to the PROPONENT:

- Act on the recommendations provided in AECOM's *Hamlet of Aklavik: Background Report for Water Licence Renewal*, in particular pertaining to the spring and fall sampling of effluent from Clearing Lake Sewage Lagoon. The Hamlet has a social and environmental responsibility to monitor the effluent discharged into the Delta.

If you require further information please contact us at (867) 777-6615 or marmstrong@grrb.nt.ca.

Sincerely,

Matthew Armstrong, M.A.
Renewable Resources Manager

Cc Amy Thompson, Executive Director
