NTS Topographic Map Sheet Numbers
(LIST ALL THAT APPLY)
76D

Latitude / Longitude and UTM System:
110°36'39 - 110°36'48
64°44'39 - 64° 44'39
Nearest Community and Water Body:

Land Status (consultation information)

Free Hold / Private Commissioners Land Federal Crown Land Municipal Land

Transboundary Implications

British Columbia Alberta Saskatchewan Yukon
 Nunavut Wood Buffalo National Park Inuvialuit Settlement Region

Type of Transboundary Implication: Impact / Effect Development

Public Concern _____
(DESCRIBE)

PHYSICAL - CHEMICAL EFFECTS

IMPACT

MITIGATION

1. Ground Water

- water table alteration
- water quality changes
- infiltration changes
- other
- N/A

IMPACT

MITIGATION

2. Surface Water

- flow or level changes
- water quality changes
- water quantity changes
- Drainage pattern changes
- temperature
- wetland changes / loss
- other:
- N/A

Road may impact drainage. Conditions to ensure reclamation to prevent long term effects.

IMPACT

3. Noise

- noise in/near water
- other: noise increase
- N/A

MITIGATION

Temporary effect while the pump is filling the taker, minimal effect.

IMPACT

4. Land

- geologic structure changes
- soil contamination
- buffer zone loss
- soil compaction & settling
- Destabilization / erosion
- permafrost regime alteration
- other: explosives/scarring
- N/A

MITIGATION

Potential addressed through road design and permit conditions.

IMPACT

5. Non Renewable Natural Resources

- resource depletion
- other:
- N/A

MITIGATION

IMPACT

6. Air/Climate/ Atmosphere

- Other
- N/A

MITIGATION

BIOLOGICAL ENVIRONMENT

IMPACT

MITIGATION

1. Vegetation

- species composition
- species introduction
- toxin / heavy accumulation
- other:
- N/A

IMPACT

MITIGATION

2. Wildlife & Fish

- effects on rare, threatened or endangered species
- fish population changes
- waterfowl population changes
- breeding disturbance
- population reduction
- species diversity change
- health changes
(Identify)
- behavioural changes
(Identify)
- habitat changes / effects
- game species effects
- toxins / heavy metals
- forestry changes
- agricultural changes
- other:
- N/A

INTERACTING ENVIRONMENT

IMPACT

MITIGATION

1. Habitat and Communities

- predator-prey
- wildlife habitat / ecosystem
Composition changes
- reduction / removal of
keystone or endangered
species
- removal of wildlife corridor or
buffer zone
- other:
- N/A

IMPACT

MITIGATION

2. Social and Economic

- planning / zoning changes or
conflicts
- increase in urban facilities or
services use
- rental house
- airport operations / capacity
changes
- human health hazard
- impair the recreational use of
water or aesthetic quality
- affect water use for other
purposes
- affect other land use
operations
- quality of life changes
- public concern
- other:
- N/A

IMPACT

MITIGATION

3. Cultural and Heritage

- effects to historic property
- increased economic pressure
on historic properties

change to or loss of historic resources

change to or loss of archaeological resources

increased pressure on archaeological sites

change to or loss of aesthetically important site

affects to aboriginal lifestyle

other:

N/A

NOTES:

Greg Cook – Water Resources	Please recommend standard permit clauses	Incorporated into permit.
Sandra Bradbury- - Land Admin	No problem with application proceeding once EA has received final approval.	N/A
Darren Unrau - Inspector	Suggested conditions. Support the placement of a fuel storage tank for the road watering at a minimum of 30 m from the lake provided that the tank is double walled and placed within a bermed and lined area.	Incorporated into permit. Different from Standard 100m setback, requires Board approval.
Brett Hudson - RWED	Concern with the constant referencing of other materials, all should be included in the application. Suggested conditions, primarily in regards to the updating of the monitoring programs.	These will be requirements of the land use permit or the water licence wherever applicable.
Anne Wilson - EC	Main concerns are from the stream crossings and the potential for acid generation from construction materials. Would like further studies done prior to final crossing design, and that monitoring downstream of construction be carried out. Feel that special care needs to be taken to avoid the inclusion of Kimberlitic materials in the road construction.	Monitoring will be a part of the water licence. BHP will have to address how they will avoid the use of kimberlite materials, there will be a condition restricting its use.
Brad Colpitts - SRHB Red Peterson - IEMA	No comments/objections. Concerned with physical aspects of the design of the road and with issues of traffic management. Want to ensure that the road maintain a low profile and that baseline monitoring and traditional knowledge are included. Recommend that traffic volumes be counted daily, that a maximum volume be set on traffic volumes during caribou migration periods, and no road construction during the migration. Also recommends report to RWED in regards to grizzly displacement.	N/A
Francis Jackson – Water Resources	Further comments?? Had concerns in regards to the MVLWB approach to the licencing of this project.	These were addressed via letter.
Greg Cook	Further comments???	
Marc Lange - DFO	Had concerns with the crossing information as it stands (June 1, 2001), are in the process of sorting out fisheries authorizations.

REASONS FOR DECISION

(LIST ALL REASONS AND SUPPORTING RATIONALES FOR PRELIMINARY SCREENING DECISION)

There appear to be no environment impacts that cannot be addressed through permit and licence conditions.

PRELIMINARY SCREENING DECISION	
<input checked="" type="checkbox"/>	Outside Local Government Boundaries
<input type="checkbox"/>	The development proposal might have a significant adverse impact on the environment, <i>refer it to the EIRB.</i>
<input checked="" type="checkbox"/>	<i>Proceed with regulatory process and/or implementation.</i>
<input type="checkbox"/>	The development proposal might have public concern, <i>refer it to the EIRB.</i>
<input checked="" type="checkbox"/>	<i>Proceed with regulatory process and/or implementation.</i>
<input type="checkbox"/>	Wholly within Local Government Boundaries
<input type="checkbox"/>	The development proposal is likely to have a significant adverse impact on air, water or renewable resources, <i>refer it to the EIRB.</i>
<input type="checkbox"/>	<i>Proceed with regulatory process and/or implementation.</i>
<input type="checkbox"/>	The development proposal might have public concern, <i>refer it to the EIRB.</i>
<input type="checkbox"/>	<i>Proceed with regulatory process and/or implementation.</i>
