Subject: Closure Recommendations For MV2003Q0046, MV2004W0014 & MV2004W0041

Hi Tyree,

I recommend final clearance and file closure for #1 & #2 below:

1) MV2003Q0046 - See attached Oct.18/10 Final Plan from Mr. Freund, which I verify correct. This is the LUP that was issued in error as it is located East of Bell Rock well within Commissioners Land.

2) MV2004W0014 - This LUP was in the name of G & G Wood Products Ltd., then was replaced with MV2004W0041, and then assigned to Deninu K'ue Dev. Corp. on Mar.22/06.

Your requests for a final plan from Gus Pasowisty will probably never be answered as he moved away from Fort Resolution several years ago. I have done up a final plan for you so you can close the file. See attached copy - no fees are owing and there are no site deficiencies pending.

3) MV2004W0041 - Even though this LUP expired Dec.15/09, final clearance cannot be given as there are still clean-up requirements at the millsite/landing near Hwy.#6, Km.74. I will follow up on this one with the Deninu K'ue Band in the coming year to try and get it closed as well.

For your info and file.
