Patrick Kramers,  
De Beers Canada Inc.,  
Environmental Superintendent, Gahcho Kué Project  
Suite 300- 49<sup>th</sup> Street  
Yellowknife, NT. X1A 1P8

Dear Mr. Kramers,

**Re: Authorization to construct a road to one of six Temporary Laydowns.**

Please accept this letter as Inspector approval to construct the approach road identified in the map provided in your January 27<sup>th</sup>, 2015 email. It is recognized that this road is needed to minimize safety hazards associated with the interaction of heavy haul trucks and winter road freight vehicles in the area of the "North Laydown Area" (as described in your email of January 20<sup>th</sup>). Approval is subject to the following:

- Only non-PAG material may be used in the construction of this road.
- The location will be as detailed in the Map identified on the January 27<sup>th</sup>, 2015 map.
- The road shall be constructed to a top width of 15m (or less) and will be approximately 200m in length.

Sincerely

Tracy Covey  
Inspector (Gahcho Kué)  
North Slave Region.

Cc: Angela Love (MVLWB)  
Andrew Howton; Marty Sanderson (GNWT)
