Subject: Gahcho Kue Hearing Participants

Good morning Angela,

I would like to update the Board that the GNWT will not be requiring any consultants at the Gahcho Kue hearings. We do have some experts retained to assist with the security discussions however since this discussion is occurring outside of the amendment process and is outside the scope of the intervention, they will not be participating at the hearing. I wanted to pass this information along for your planning, as well as De Beers'.

Let me know if you have any questions,

Rick
