Subject: Human Health Risk Assessment - Stress Component

Greetings,

Due to time constraints and to allow for maximum participation from all our stakeholders, the consultation sessions for the stress component of the Human Health Risk Assessment are postponed until April or an alternative time to ensure maximum participation. We will send out the dates and location of the new sessions as soon as the arrangements are finalized.

Thank you for your understanding and continued interest in the Giant Mine Remediation Project. If you have any questions, please contact Sharon Low, Engagement Manager at Sharon.Low@aandc-aadnc.gc.ca.
