Attention: Natalie Plato, Deputy Director Giant Mine Remediation Project

Dear Ms. Plato,

Natalie

RE: Giant Mine Remediation Project Water Compensation Claim Process – Mitigated Impact on Boat Launch Access

This letter is in response to your letter dated October 10, 2019 regarding the above noted matter.

The City of Yellowknife (the "City") is encouraged that the Giant Mine Remediation Project (the "Project") is considering new measures that might mitigate some of the impact of the Project on residents' access to the Giant Mine Townsite and the public boat launch.

As has been the case throughout the Project, the City is eager to work with the Project, and the Government of the Northwest Territories (the "GNWT") to avoid, or mitigate, any impact the Project might have on residents by exploring any and all options. The Project building a new boat ramp would go a long way towards mitigating the impacts of the Project.

As such the City is keen to further engage with the Project and the GNWT to reach an agreement on the details of the Project's proposal. Please contact Kerry Penney at kpenney@yellowknife.ca or 920-5633 as soon as possible to continue those discussions.

Sincerely,

Sheila Bassi-Kellett

Sheila Bassi-Kellett
