Subject: RE: Presentations for City of Yellowknife - OVERDUE NOTICE

Hello Todd –

Presentations provided to the Board must be in line with the information provided in the interventions. There can be no new evidence introduced at the hearing. Since your recommendation for a TAC was not included in your intervention, it cannot be brought forward on the day of the hearing, even with an explanation.

However, your suggested path forward of writing to the Board noting this recommendation and the City's agreement is fine. I will place it on the record. References to this recommendation must be removed from your presentation. I trust you will re-submit this to me shortly.

Thanks,
Lynn

Subject: FW: Presentations for City of Yellowknife - OVERDUE NOTICE
Importance: High

Greetings Lynn,

Please pardon the delay. ENR ppt presentations and related written materials are required to be reviewed and authorized by the Deputy Minister prior to submission, which adds short time requirements on our end. For the remainder of this YK City hearing process, it is requested to please cc myself and Diep Duong directly on all materials sent to ENR. For this current project, this will help ENR facilitate the any tight timelines in a more expedient manner in the future.

Please also note this presentation includes reference to a recommendation regarding a TAC that was included in the first ENR written submission for this process. It was included in various recommendations, and was also discussed with the City and agreed to in our meeting. However, through consultation regarding this issue with the City and Board staff, ENR determined this Recommendation was more suited as stand-alone, and was edited for re-submission accordingly.

However it was inadvertently not included in the second written submission. ENR will address and explain this issue at the Hearing.

ENR requests that it may provide a updated written version of this recommendation, and that will also demonstrate confirmation of agreement by the City. It's proposed this will help provide benefit of the record, and for Board members, Board staff, and Interveners. Please advise on the suitability of this suggested path forward.

Thank you.

Cheers,

Todd M. Paget, P. Eng.

Hello –

As a registered intervenor for the City of Yellowknife hearing, you are expected to be presenting material to the Board based on your interventions. Presentations were due by 5pm on January 12th. You are receiving this email because to date, I have not gotten your presentation.

If you do not submit these by the end of today (5 pm), January 14, there is a chance you will not get hearing time as an intervenor.

Sincerely,
Lynn

Lynn Carter
