Hello Lynn,

Can you tell me where I can find the report of environmental assessment for the existing City of Yellowknife water licence?

I also need digital copies of the project description for the original licence, as well as all amendments, and a timeline showing which activities were licenced, when, and how they were assessed for environmental impacts.

I have already asked and found out the MVEIRB does not keep these records.

If you do not have them, then can you tell me how do we know which parts of the project have already complied with Section 5 of the MVRMA and which still need to be assessed? Whose responsibility is it to determine that?
