PO Box 2130
Yellowknife, NT X1A 2P6

Attention: Angela Plautz, Regulatory Officer

Dear Ms. Plautz

Water Licence No. MV2009L3-0007 – Change to SNP Station 0032-F1

On July 20, 2011, there was a near miss incident while sampling at SNP station 0032-F1 which has brought up safety concerns with the site. The island which the samples are taken from has numerous deep cracks running through the area which are obscured by tall grasses and plants. The shoreline is also deteriorating. The site is no longer suitable for sampling due to these hazards. Photos of the existing conditions are included with this letter.

As a result of these safety concerns, the City has looked at the possibility of an alternate sampling site in the area. On July 27th a tour of the area was taken by City staff, Trinity Helicopters and Dillon Consulting (who are collecting data on the lagoon as required by the City's Water Licence). A site was discovered roughly 300m from the current site, situated on the same body of water. The site has a clear area for the helicopter to land, and the shoreline is much easier to access. Photos of the site are attached.

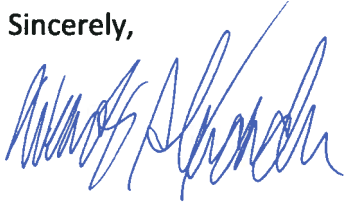

As shown in the photos, the old and new sites are close together and samples will be taken from the same water body. The coordinates of the proposed site are shown below.

Water Licence Coordinates	Proposed F1 Site Coordinates
62°24'49"N, 114°44'7.5"W	62°24'49"N, 114°44'11.9"W

The City requests permission to change the existing SNP Station 0032-F1 from its current location to the new location and to commence sampling at the new station as soon as possible.

If you have any further questions or concerns please don't hesitate to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Wendy Alexander".

Wendy Alexander, P.Eng.
Municipal Works Engineer
Public Works & Engineering

Subject: Water Licence MV2009L3-0007 - Submissions from the City of Yellowknife

Hello Angela,

Submitted herein are the following documents:

- Request to move SNP Station 0032-F1 Sampling Site
- Hazardous Waste Management Plan (HWMP)
 1. Responses to Reviewer Comments
 2. Revised HWMP
- Stormwater Management Plan (SWMP)
 1. Responses to Reviewer Comments
 2. Revised SWMP

I have uploaded the documents to the City's FTP Site (there are 5 total). The letters of submission for the HWMP and SWMP are included with the Responses to Reviewer Comments. Below is the information for the FTP site.
