Application # MV2009L3-0029

Copied To BJ / Ry

Sewage Effluent Discharge
Licence Number: **MV2009L3-0025**

The Hamlet of Fort Liard requests permission to perform decant from Cell #2 of the Sewage Lagoon Disposal Facilities.

Samples of the effluent were sent to CARO Analytical Services, September 22 to test for current contaminate levels contained in effluent. Work being proposed by Dillon Consulting on sewage lagoon improvements in 2017 requires this lagoon cell to be emptied at this time. Details of the proposed work was outlined in the Sewage Lagoon Capacity Study Final Report submitted with the 2015 Water License Report.

Test results of cell #2 effluent tests will be forwarded as soon as they are received.

The planned Cell #2 decant would take place at the completion of the cell #3 decant. The decant of cell #3 is currently scheduled to begin the morning of September 30, 2016, forecast to take 6 or 7 days to complete.

Sincerely,

Alan Harris
