Hello Erica,

My apologies for the late reply, I was away from the office yesterday and our internet connection was down. Just going through my email now to try to get back on track.

No, this is not an issue for the Hamlet. We will respond to comments.

Alan Harris

Good morning again,

So, it appears that Environment Canada had some trouble posting comments, and will be posting a few on this review later today.

When this happens, we need to ask proponents whether they're willing to respond to late comments; considering it's quite early in the response period, I'm trusting that this will not be an issue for the Hamlet, but please let me know if it is.

Thanks,
Erica

Good morning Al and Madison,

The review period for the Hamlet's 2018 Annual Report ended yesterday afternoon. There are only a couple of comments posted, but I would encourage the Hamlet to respond.

The review page can be found on the ORS here:

http://lwbors.yk.com/LWB_IMS/ReviewComment.aspx?appid=12676. The Hamlet's response deadline is currently set at April 23, 2019; if you anticipate requiring more time to respond, please let me know as soon as possible.

Madison, you are currently set up to be able to post responses to comments; if you'd like me to walk you through using the ORS, please let me know and we can set up a time to do that after I'm back in the office next week.

Thanks,
Erica
