Subject: RE: Fort Liard sewage lagoon decant

Hi Miki,

I just wanted to give you a brief update on Fort Liard's request for sewage lagoon decant last week. Mr. Harris received sample results this morning and emailed them to me. I have reviewed the results and they all meet specified WL effluent quality standards. Thus, I have approved Mr. Harris's request to conduct an immediate decant. He relayed that the decant would last approximately 6 days. As per licence SNP *Sampling and Analysis Requirements* (section 2(a)), I requested that another grab sample be collected on the last day of decant.

In addition, Mr. Harris informed that he would send a copy of the pre-decant samples results to you.

Please let me know if you require any other information, or have any questions regarding the above.

Regards,

Wendy

Hi Miki,

Yes, I received the fax. I sent Mr. Harris an email with all my new contact info (see attached email). For the time being, I am the inspector overseeing this file. I will notify you and Mr. Harris if that changes. I spoke to Mr. Harris on Friday afternoon (23rd) and plan to get in touch with him at the end of the week (30th) to see where things stand, and whether or not sample results have been received.

Please don't hesitate to contact me with any question regarding the above.

Regards,

Wendy

Subject: Fort Liard sewage lagoon decant

Hi Wendy,

We received a fax regarding a request for permission to decant the sewage lagoon (see <http://www.mvlwb.ca/Boards/mv/Registry/2009/MV2009L3-0025/MV2009L3-0025%20-%20Hamlet%20of%20Ft%20Liard%20-%20Notification%20of%20Planned%20Sewage%20Lagoon%20Decant%20-%20May23-14.pdf> . It looks like they used the old AANDC numbers so I wanted to make sure it reached the right people. Are you the Inspector for this file?

Thanks,
Miki
