Re: Fort Liard Old Solid Waste Facility Closure and Reclamation Plan

Dear Ms. Janes,

Thank you for the letter of approval regarding changes submitted March 3, 2017. Dillon Consulting has been working hard on this project to assist the Hamlet in meeting the conditions of our current Water License. These changes submitted for approval will help the Hamlet to ensure the abandonment of the old waste site meets all License requirements and environmental concerns.

The Hamlet will work along with Dillon and the contractor selected to perform the work according to plans submitted. If you have any questions regarding this work at any time please do not hesitate to contact me.

Sincerely,

Alan Harris

Manager Municipal Operations
Hamlet of Fort Liard
