Subject: MV2009L3-0025 Water Licence Application for Hamlet of Fort Liard

Hi Ann,

The Water Inspector is out of the office until early next week, so I will get back to you then about the next steps.

In the meantime, if you could submit more information about the future solid waste disposal facility, and clarify the statement on page 9 about the current system appearing to have no problem meeting 2009 licence criteria requirements (it contradicts what's under section 4.25 of the questionnaire), it would be appreciated.

Thanks,

Angela
