Subject: Fort Liard Solid Waste Site information for Water License application

Angela – sorry it's taken a while for me to get this clarification to you. The SAO has been away, and then I was traveling.

John McKee has confirmed the community is no longer storing hazardous waste at the solid waste site, and that they had a certified contractor come in from Fort Nelson and remove all hazardous waste that was there. They are working on a new 'Standard Operating Procedure' for collection and removal, but it is not yet completed.
