Subject: FW: Snap Lake Water licence

Please post in Snap MV2001L2-0004 – Amendment application.

It should be with Zabeys email to Erica on compliance date changes.

Thanks,

Marc Casas
Regulatory Officer

Subject: RE: Snap Lake Water licence

The Board has the power on most water licences, through a clause in the general conditions section, to change any compliance dates contained within the licence.

The Board would entertain an application, from an applicant, to change compliance dates within a licence based, on evidence and argument gained through an open and transparent review process.

The specifics of any particular application to change a compliance date would depend on the situation.

As the issue you discuss raises questions about an active Board proceeding, I can't comment on specifics for the licence application you reference.

All the best,

Zabey

Subject: Snap Lake Water licence

Angela - I am following up with you (Marie is away this week) on the attached.

As I understand it some of the parameters in Snap's current WL will change as of January 1st 2015. Given the challenges De Beers is having with TDS for Snap, the company will very likely be unable to comply with the new levels. They have initiated an amendment to the licence but given the delays in the REA from MVEIRB it is unlikely any amendment to the licence will happen before Jan 1, 2015.

In reading the attached meeting minutes I wanted to confirm that MVL&WB has the ability to amend the dates in the licence and so could amend the dates for the changes in parameters pending the outcome of the WL amendment process.

If that is in fact the case I also wanted to confirm whether the Board is interested in considering amending the date or not.

Matt
