Hi Jen: thanks for looking into this and removing the document in question from public viewing.

Rob –

We have decided to temporarily remove the protected/sensitive document you identified below from our public registry. We would like to replace it with a redacted version which complies with federal privacy protection law. Please send me a redacted version so that we can post this information to our registry in replace of the protected/sensitive document.

Please let me know if you have questions with this approach.

Thanks

Jen

PROTECTED - SENSITIVE / PROTÉGÉ - DÉLICAT

Hi Jen: see the hyperlink below to your website. This was uncovered fairly recently and contains a PROTECTED – SENSITIVE supporting document that was prepared by our Office and not meant for public release. If you look at the report disclaimer, distribution of the document is restricted. Do you know if the necessary approvals for public posting was secured? I know it is several years old now, however, if you want to continue to post it then I will need to run it

through our ATIP Office for redaction. As a federal government entity you are certainly entitled to keep it as an internal document.

Please advise.
