Yes, but different departments in their organisation have different files. I've got one guy I would well with (Jason Casault) whom I am trying to make my primary point of contact. I'll forward you some other recent correspondence on the files, and advise as soon as I hear more from them.

Hi Keith,

Thanks for the email and the update, I'm glad to hear from you.

I'd be very happy to speak directly with your consultant; it would probably be helpful to have you on that call as well, so please let me know when you'd like to organize it. Am I right that it's one consultant dealing with all of the outstanding WL submissions?

Erica

Hi Erica. Feeling guilty for not getting back to you - waiting for consultant to submit annual report (he is promising by end of this week) so that I would have some good news. He advises he will be contacting you directly re Sewage Lagoon O&M Plan updates, and is looking to update his contract with us to accommodate Groundwater Monitoring Plan updates as well. There was no sampling this past Fall; but intent is to restart sampling program this Spring if I can get them to engage.

Hi Keith, happy new year!

Thanks for your response to Shelagh's letter regarding outstanding submissions under Fort Smith's Water Licence that came in last fall. I've tried to reach you by phone a couple of times in the last week, but haven't been able to do so; I'm looking for an update on the proposed submission dates that you'd suggested, which have now all passed.

Could you please give me a call at your earliest convenience so that we can discuss the status of these requirements, and when the Town plans to submit them? I'm also interested to hear whether the existing groundwater wells were sampled this past fall.

Look forward to hearing from you.

Thanks,

Erica
