Re: Letter of May 26, 2015 re: Press Release of May 22, 2015

Dear Chief Betsina:

Thank you for your prompt response on May 26, 2015. The Giant Mine Remediation Project will work with GMAC (Giant Mine Advisory Committee) to find an acceptable solution to the visible dust from the mine site. The next GMAC meeting is tentatively scheduled for June 11, 2015 and we will begin working on a solution at that time.

I would like to assure you that the Project was not trying to avoid your question, rather felt that a discussion to gather YKDFN input before making an important decision was a more collaborative and productive approach to the situation.

Yours Sincerely,

Natalie Plato
Deputy Director Giant Mine Remediation Project

cc. Lisa Dyer, GNWT
Johanne Black, YKDFN
