Mr. Adrian Paradis
Acting Manager, Giant Mine Remediation Project
Aboriginal Affairs and Northern Development Canada
Contaminants and Remediation Directorate (AANDC-CARD)
YELLOWKNIFE NT X1A 2R3 Email: Adrian.Paradis@aandc-aadnc.gc.ca

Dear Mr. Paradis:

**Schedule 1, item 1(c) Revision
Roaster Deconstruction and Underground Stabilization Work
Giant Mine, NT**

The Mackenzie Valley Land and Water Board (the Board) received your request for a revision to Schedule 1, Item 1(c) within the above noted Water Licence (WL) on April 17, 2013. The Board has considered this request and have revised this item in the WL to read as follows:

The monthly and semi-annual quantities in cubic metres of each and all Waste discharged, including, but not limited to, the total volume of water pumped from the underground workings to the Northwest Tailings Pond each month.

Attached you will find the revised Schedules for WL MV2012L8-0010. If you have any questions or concerns, please contact Lynn Boettger at (867) 766-7461 or email lboettger@mvlwb.com.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Willard Hagen". The signature is written over a vertical line that extends downwards from the "Yours sincerely," text.

Willard Hagen
Chair

Lynn Boettger, Regulatory Officer, MVLWB

Attachment

Part A: Scope and Definitions

Scope

1. This Licence entitles Aboriginal Affairs and Northern Development Canada to use Water and dispose of Waste for miscellaneous undertakings limited to the deconstruction of the Roaster Complex and stabilization of the Underground Stabilization Work Area and associated activities as described in the Accepted Application located at the Giant Mine Site (62°28'54" N, 114°19'12" W and 62°32'38" N, 114°22'34" W), Northwest Territories.
2. This Licence is issued subject to the conditions contained herein with respect to the taking of Water and the depositing of Waste of any type in any Waters or in any place under any conditions where such Waste or any other Waste that results from the deposits of such Waste may enter any Waters. Whenever new Regulations are made or existing Regulations are amended by the Governor in Council under the *Northwest Territories Waters Act*, or other statutes imposing more stringent conditions relating to the quantity or type of Waste that may be so deposited or under which any such Waste may be so deposited, this Licence shall be deemed, upon promulgation of such Regulations, to be automatically amended to conform to such Regulations.
3. Compliance with the terms and conditions of this Licence does not absolve the Licensee from the responsibility for compliance with the requirements of all applicable federal, territorial, and municipal legislation.

Definitions

In this Licence: **MV2012L8-0010**

“Accepted Application” means the type B Water Licence application as submitted to the Board on December 19, 2012 and the “Site Stabilization Plan for the Giant Mine Remediation Project” dated October 14, 2011 (redactions reduced version) submitted on January 22, 2013.

“Act” means the *Northwest Territories Waters Act*.

“Analyst” means an Analyst designated by the Minister under subsection 35(1) of the Act.

“Board” means the Mackenzie Valley Land and Water Board established under Part 4 of the *Mackenzie Valley Resource Management Act*.

“Inspector” means an Inspector designated by the Minister under subsection 35(1) of the Act.

“Licensee” means the holder of this Licence.

“Minister” means the Minister of Indian Affairs and Northern Development.

“Polishing Pond” means the retention structure downstream of the effluent treatment plant that is designed to receive treated minewater. Located at 62° 30' 43.146" N, 114° 20' 54.961" W.

“Roaster Complex” means a group of industrial process buildings at the Giant Mine Site located south of the B 1 Pit on the south side of Highway 4 (Figures 13 and 14 in the Roaster Complex Deconstruction Detailed Project Description provided in the Accepted Application). Located at 62° 30' 7.099" N, 114° 21' 27.534" W.

“Regulations” means Regulations proclaimed pursuant to section 33 of the *Northwest Territories Waters Act*.

“Temporary Waste Storage Area” means an area located in the northeast corner of the Central Tailings Pond (UTM Zone 11V, 636969.04 mE and 6933427.92 mN) designated for the temporary storage of hazardous and non-hazardous Waste. Refer to Figure 6 – Temporary Waste Storage Location in the document Giant Mine Roaster Complex Deconstruction – Water Management Plan submitted with the Accepted Application.

“Underground Stabilization Work Area” includes the underground stopes, chambers and bulkheads that are clustered near the B1 and B2 open pits; on the west side of the Mill near Highway 4; and at the north end of the roaster complex (as shown on Figures 3, 4a and 4b in the Underground Stabilization Detailed Project Description provided the Accepted Application package).

“Waste(s)” means Waste as defined by section 2 of the Act.

“Water(s)” means any Waters as defined by section 2 of the Act.

Part B: General Conditions

1. The Licensee shall file semi-annual reports with the Board as follows which shall contain the information as listed in Schedule 1, item 1:

Reporting Period	Semi-Annual Report Submission Date
May 1 – October 31 each year	January 31 each year
November 1 – April 30 each year	July 31 each year

2. The Licensee shall comply with the terms of any plans approved pursuant to the conditions of this Licence and with any amendments to the plans as may be made from time to time pursuant to the conditions of this Licence and as approved by the Board.
3. Compliance dates specified in the Licence may be modified at the discretion of the Board.
4. The Licensee shall comply with the Schedules annexed to this Licence, and with any amendments to the Schedules as may be made from time to time pursuant to the conditions of this Licence and as approved by the Board.
5. Meters, devices, or other methods used for measuring the volumes of Water used and Waste discharged shall be installed, operated, and maintained by the Licensee to the satisfaction of an Inspector.
6. The Licensee shall ensure a copy of this Licence and all approved plans under this Licence are maintained at site operation at all times.
7. The Licensee shall adhere to the “Communication Plan for Duration of Site Stabilization Activities” as detailed in the Accepted Application.

Part C: Conditions Applying to Water Use

1. The Licensee shall obtain all recycled Water from the Polishing Pond.
2. The Licensee shall obtain all fresh Water from on site storage tanks.
3. The quantity of treated minewater used for all purposes shall not exceed 300 cubic metres per day.

Part D: Conditions Applying to Waste Disposal

1. The Licensee shall ensure that any unauthorized Wastes associated with this Licence undertaking do not enter any Waters.
2. The Licensee shall, 45 days prior to starting deconstruction of the Roaster Complex, submit to the Board for approval a Giant Mine Roaster Complex Deconstruction Waste Management Plan.
3. The Licensee shall, 45 days prior to starting backfilling of stopes or chambers, construction of new bulkheads or repair of existing bulkheads, in the Underground Work Stabilization Area, submit to the Board for approval an Underground Stabilization Waste Management Plan.
4. The Licensee shall implement the plans referred to in Part D items 2 and 3 as and when approved by the Board.
5. If not approved by the Board, the plans referred to in Part D items 2 and 3 shall be revised and resubmitted for approval as directed by the Board.
6. The Licensee shall modify the Waste Management Plans referred to in Part D, items 2 and 3 as necessary to reflect any proposed changes in operations. Any proposed changes shall be submitted to the Board for approval.
7. The Licensee shall not remove or pump any ponded water encountered in the South and Central tailings ponds to areas other than within the South and Central tailings ponds unless otherwise approved by the Board.
8. The Licensee shall provide written correspondence to the Board and Inspector ten days prior to the initial deposit of Waste demonstrating that the facility has agreed to accept the Waste and has the ability to receive the volumes of Waste requested.

Part E: Conditions Applying to Modifications

Intentionally left blank

Part F: Conditions Applying to Contingency Planning

1. If, during the period of this Licence, an unauthorized discharge of Waste occurs, or if such a discharge is foreseeable, the Licensee shall:
 - a. Employ the appropriate contingency plan;
 - b. Report the incident immediately via the 24-hour NWT Spill Report Line. Currently the number is (867) 920-8130; and
 - c. Submit to an Inspector a detailed report on each occurrence not later than 30 days after initially reporting the event that includes a summary of clean-up actions and preventative measures to avoid any further unauthorized discharges as applicable.
2. The Licensee shall adhere to the approved General Contingency and Emergency Spill Response Plan as submitted with the Accepted Application.
3. The Licensee shall modify the General Contingency and Emergency Spill Response Plan referred to in Part F, item 2 as necessary to reflect any proposed changes in operations. Any proposed changes shall be submitted to the Board for approval.

Part G: Conditions Applying to Abandonment and Restoration

Intentionally left blank

Part H: Conditions Applying to Construction

1. The Licensee shall, 45 days prior to starting deconstruction of the Roaster Complex, submit to the Board for approval a Roaster Complex Detailed Deconstruction Plan. This plan shall contain the items as listed under Schedule 2, item 1.
2. The Licensee shall, 30 days prior to the use of any wetting agents during decontamination for Roaster Complex deconstruction, submit to the Board for approval the Material Safety Data Sheet(s) for the wetting agents.
3. The Licensee shall, 45 days prior to starting backfilling of stopes or chambers, construction of new bulkheads or repair of existing bulkheads in the Underground Work Stabilization Area, submit to the Board for approval a detailed Underground Work Stabilization Plan. This plan shall contain the items as listed under Schedule 2, item 2.
4. The Licensee shall implement the plans referred to in Part H items 1 and 3 as and when approved by the Board.
5. If not approved by the Board, the plans referred to in Part H items 1 and 3 shall be revised and resubmitted for approval as directed by the Board.

6. The Licensee shall modify the plans referred to in Part H items 1 and 3 as necessary to reflect any proposed changes in operations. Any proposed changes shall be submitted to the Board for approval.
7. The Licencee shall only use tailings paste, waste rock from mine development, or existing inert rock material stockpiled on the surface to backfill the chambers and stopes unless otherwise approved by the Board.
8. The Licensee shall repair or reinforce bulkheads as described in the Giant Mine Underground Stabilization Detailed Project Description, submitted with the Accepted Application, unless otherwise approved by the Board.

Part I: Conditions Applying to Operation and Maintenance

Intentionally left blank

Mackenzie Valley Land and Water Board

Chair

Witness

Schedule 1 – General Conditions

1. The Semi-Annual Report(s) referred to in Part B, item 1 shall include, but not be limited to, the following information:
 - a. The monthly and semi-annual quantities in cubic metres of fresh Water obtained from all sources;
 - b. The monthly and semi-annual quantities in cubic metres of recycled Water obtained from all sources;
 - c. The monthly and semi-annual quantities in cubic metres of each and all Waste discharged including, but not limited to, the total volume of water pumped from the underground workings to the Northwest Tailings Pond each month;
 - d. A list of unauthorized discharges, including any clean-up actions taken and preventative measures implemented to prevent future discharges;
 - e. An outline of any spill training and communications exercises carried out;
 - f. A summary of any engagement and consultation activities completed during the reporting period and an outline of any activities anticipated for the upcoming reporting period;
 - g. A summary of any revisions to the approved General Contingency and Emergency Spill Response Plans;
 - h. A summary of any revisions to the approved Waste Management Plans for Roaster Complex Deconstruction and Underground Stabilization;
 - i. Details of all work completed for the Roaster Complex, including but not limited to the actual deconstruction sequence of the associated structures;
 - j. Details of all work completed for the Underground Stabilization Work Area;
 - k. Details of any anticipated activities for the upcoming reporting period for the Roaster Complex deconstruction and the Underground Stabilization Work Area, including the proposed sequence in which the structures of the Roaster Complex will be deconstructed;
 - l. Details on the types and quantities of hazardous materials removed from the Roaster Complex deconstruction;

- m. Details on the types and quantities of packaging used for storing waste at the Temporary Waste Storage Area, including non-hazardous and arsenic-containing hazardous waste;
- n. Details on the volume of each type of backfill material used in each stope or chamber during the reporting period;
- o. Completed “As-Built Statement of Risk Mitigation” letters stamped by a professional engineer that confirm the mitigation of risks associated with the Underground Stabilization Work Area; and
- p. Any other details on Water Use or Waste disposal requested by the Board three months prior to the semi-annual report submission date.

Schedule 2 – Conditions Applying to Construction

1. The Roaster Complex Detailed Deconstruction Plan referred to in Part H, item 1 shall include, but not be limited to, the following:
 - a. An assessment of the potential risks to the environment from the chosen deconstruction methods and mitigating measures to address these risks;
 - b. A summary of the equipment and methodology to be used for deconstruction of the Roaster Complex;
 - c. The proposed sequence of deconstruction work within each structure of the Roaster Complex to be taken down, including where decontamination work is required as part of the structure deconstruction;
 - d. The size reduction, stacking, packaging, and storage procedures for non-hazardous waste and arsenic-containing hazardous waste, and packaging type as applicable;
 - e. Spill contingency plans specific to Roaster Complex deconstruction if the plans deviate from or add to the November 2012 General Contingency and Emergency Spill Response Plan prepared by Nuna/Deton Cho Joint Venture as submitted in the Accepted Application;
 - f. A plan for the management and monitoring of dust, including but not limited to thresholds, action levels, and management responses; and
 - g. Design of the recycled water collection and transport system, and related spill prevention measures.

2. The detailed Underground Work Stabilization Plan referred to in Part H, item 3 shall include, but not be limited to, the following:
 - a. A summary of the types of backfill material required which may be one or a combination of tailings paste, waste rock from mine development, or existing inert rock material on the surface (e.g., quarried rock);
 - b. An estimate of the volume of each backfill material required;
 - c. Details of the proposed methodologies for carrying out backfilling of the chambers and repairing/reinforcing bulkheads;
 - d. Detailed plans to mitigate potential effects to the environment and issues related to tailings excavation including:
 - Management of wet or frozen tailings if encountered;
 - Ensuring acceptable grain size range of tailings as there can be no slimes used in making paste;
 - Operational dust control (wetting of tailings during excavation and paste production using treated minewater);
 - Operational water management (treated minewater usage associated with dust control and wash down of equipment);
 - Cross-highway transport of tailings to temporary stockpiles (trucked or piped);
 - e. Details on the process to collect, store, and treat “bleed” water from tailings pastes; and
 - f. Spill contingency plans specific to the Underground Stabilization Work Area if the plans deviate from or add to the November 2012 General Contingency and Emergency Spill Response Plan prepared by Nuna/Deton Cho Joint Venture as submitted in the Accepted Application.
