Subject: RE: Request for Input: 2013 Contingency Securement of Tarping Roaster Waste

The Fisheries Protection Program of DFO has no issues. Please be aware that Morag with FSCAP very well may have input.

Subject: Request for Input: 2013 Contingency Securement of Tarping Roaster Waste

Greetings,

The Giant Mine Project Team will be requesting approval from the Mackenzie Valley Land and Water Board (MVLWB) to have tarping added to the winter containment procedures for arsenic impacted waste described in the approved Roaster Complex Deconstruction Waste Management Plan.

Prior to applying to the MVLWB, the Project Team is seeking your input on the proposed tarping, which is explained in the attached insert. The insert has been prepared to be a stand-alone section in the approved WMP and will become Section 2.4.7.1 in the WMP once any input has been addressed. Please provide your comments by November 22, 2013.

Should you require any additional information or have any questions, please contact Adrian Paradis, Regulatory Manager, Giant Mine Remediation Project at (867) 669-2425 or by email at Adrian.paradis@aandc-aadnc.gc.ca.

Sincerely,

Adrian Paradis
