Subject: Re: Monthly Giant Mine SSP July 2013--Hundreds of Ravens Roosting at Giant Mine

Hey Adrian, please reply-all to this. I'm super curious about this too. Does it pose a health risk to the birds or to humans?

Thanks,

Iman Kassam

Thanks Adrian. Having driven past the site on the evening of August 9, I took the attached photo that shows literally hundreds of ravens roosting on all the buildings.

Is there an explanation for this behaviour?

Are all the bird deterrence measures turned off at the end of the work day?

Are the birds safe after having roosted on the buildings?
