Joe  
I am at Mackay Lake Lodge now since Aug 15 till Aug 22

It is unfortunate that you have gone to the lodge in 2013,2014 and now 2015 without communicating with us and have done inspections without our input or presence.

We are maintaining the property in an environmentally friendly way and will continue to do so Targetting things like our incinerator and land fill site really invites an independent review as your asstetions that the approved facilities in Yellowknife are more appropriate than our "very clean" site as is verified in your photos ..this is not appropriate,

Our incinerator may be home made but take a look at the results and the environment surrounding it. We will continue to maintain the facility with our limited financial resources and request an improved communication with the inspectors since devolution  
Gary Jaeb
