I thought that I did answer Mr Heron's concern/inspection report in that we do not have any confirmed dates for when we will be able to go to the lodge and complete some of the work, but we are committed to do what is necessary as we can and have a reason/business or funding to go there,

I did ask him for some information and he has not given me a reply

I will go back to his original letter point by point

Can some one please give me a list of approved facilities?

Gary J

Re: MV2013J0006 - True North Safaris Ltd.

You are welcome Gary, and at this point in time, the Permittee is bound by the existing conditions of the permit, so we still require information on the items detailed in Mr. Heron's report and letter no later than November 15, 2015.

As mentioned earlier today, please touch base with Mr. Heron as it appears you seem to be under the impression that we require items flown off site immediately. This is not the case and Mr. Heron can help clarify what he requires of you.

Regards,

Clint

Clint  
This is very helpful  
I need some time to find all the information but what I did see is some room to move/negotiate on the incinerator and disposal of ashes.

I will get back to you all  
Gary

RE: MV2013J0006 - True North Safaris Ltd.

Gary,

I have taken the liberty to review the MVLWB's web site and below are links to the questions you've posed in regards to approved facilities, and steps required to appeal permit conditions.

The Department of Lands does not issue land use permits and if you are in the opinion that a change to permit conditions is required after all of the further studies and past meetings with Regulators, your options are outlined in the link below.

Please contact Mr. Joe Heron with any questions you may have about the requirements detailed in the Environmental Inspection Reports and September 2015 letter. Mr. Heron has tried calling your land line and cell phone number and both appear to be out of service? Can you please provide him an updated number. Thank you.

Once again, your cooperation to comply with the *Mackenzie Valley Land Use Regulations*, operating conditions annexed to land use permit MV2013J0006, and requests of an Inspector is anticipated.

Regards,

Clint
