Miki
et al

I am planning to, take this to the GNWT and appeal to the Feds as the letter from Mr. Hagen dated Oct 28/13 tells me that my only appeal is through the Federal Courts.

I plan to ask for a review of the land use permitting process and how it affects tourism operations vs mining and oil developments.

Following Clint's letter dated Dec 2/14, threatening me with jail and fines if I do not comply by Jan 23/15. I am asking him if the threats are to me personally or my company?

I want you to accept the attached original submission from me and clearly outline what you disagree with or do not approve in my plan and outline what your requirements are, vs what I propose.

I simply do not have the staff or capacity to re-do what I have already done.

I am now seeking political and policy direction as this affects tourism.
If the GNWT determines that they want to change the rules for tourism then we will be asking them to help fund the transition.
