**Subject:** Re: MV2013J0006 - True North Safaris - Boad Response to Oct. 15 Email

The attached letter does not address my concerns nor answer my questions.

How does trucking or flying garbage back to Yellowknife save the environment? It will be incinerated here plus we add the fossil fuel carbon to transport it.

The land fill sight at Mackay was acceptable at one time and is “heaven/pristine” compared to the ones at Yellowknife, but now is disallowed. Who sets these standards? Please answer this question.

I have asked similar questions about incinerating, using accelerants and burying ashes. These questions have not been properly answered.

Nor who are the licensed facilities and who licenses them , for disposing of ashes and fuel?.

I want to appeal some of the conditions in the permit and ask if there is an appeal process.

I answered questions that were posed during the application process but now it is implied that I did not provide a complete application, this should have been done by you during the applications process. Some of the conditions in the permit were answered in the application?

Please advise.

Gary Jaeb

At the special meeting that you refer to in your letter, I expressed my concerns on some of the issues yet the conditions in the permit imply that i was ingnoredMy submissions and plan
