---

Hi David,

To follow up on our phone conversation this morning:

-The Engagement Plan is required to be submitted to the Board 90 days prior to the commencement of Phase 1 (see [Staff Report](#) page 29). In the issuance letter it states that “The Engagement Plan are considered to be approved as an interim submission, and upon resubmission the Plan will require a public review and a conformation of conformity from the Board” (Board decision) (see [Issuance letter](#) page 2). The word “interim” was used as the Board directives were not particularly lengthy, but ultimately the Board decided another public review of the Plan was required followed by a Board decision on the Plan prior to Phase 1.

-There was a typo in [Permit](#) condition 109 (Closure and Reclamation Plan). Similar to the Licences it should read: “Within 90 days following the effective date of this Permit, the Permittee shall submit to the Board, for approval, a Closure and Reclamation Plan to fulfill Report of EA Suggestion 14-1. The Plan shall include, but not be limited to the following information... (requirements listed in a) – n)).

-You said that you would send a revised Waste Management Plan with updates we spoke of, including: consistency throughout the plan about not incinerating; and removing the reference to a disposal plan that would include transfer to the Mine for ARD/ML material to be managed in the Mine’s Waste Rock Pile – this activity would have to be approved under the appropriate Mine authorizations.

-Land Use Fees will be required for the road that crosses Indian Affairs Branch (IAB) Lands. I calculated 17.3 hectares (rounded to 18 ha) of land based on values in your [Post-EA Information Package](#) given 170 km ASR length equating to 440 hectares, with 6.7 km being in IAB lands (6.7 km in IAB lands indicated in [RECLAIM](#) - 2 Reclamation Approach). If this is incorrect, could you send me a document that includes details for the correct land use (in hectares) that will occur on IAB lands? The fee is \$50/hectare, but the first two hectares have no fee. To be refunded land use fees for MV2012F0007 a final plan would have to be submitted, and Final Clearance approved by the Board.

Thanks David,

**Kimberley Murray, MSc**
