Re: Mr. Allan Krasnick, Resignation from NATCL Board

North American Tungsten Corporation is informing the MVLWB and other interested parties of Mr. Allan Krasnick's resignation from the company's Board of Directors.

Mr. Krasnick resigned from the Board of Directors on Wednesday, September 23, 2015.

Please contact Cantung Environmental Department (cantungenviro@natcl.ca) should you have any questions or concerns regarding this information.

Yours truly,

North American Tungsten Corporation

Deborah Flemming
Environmental Superintendent

RESIGNATION

TO: THE BOARD OF DIRECTORS

North American Tungsten Corporation Ltd. (the "Company")

Please accept this letter as confirmation of the information I provided to Alan Hutchison, yesterday, and others on Monday that I have resigned as a director of the Company. It has been an honour to have served for these many years as a director, and to have had the opportunity to help define the Company's presence in the North.

I have always taken my responsibilities seriously and acted in good faith to support the Company as a corporate resident, an employer, and a responsible occupier of lands that are of such natural beauty, environmental importance, and cultural significance.

I wish all the best to the Company's remaining directors: their confidence in the Company preserved hundreds of resource jobs that would have otherwise disappeared. Applying a rigorous hands-on approach to operations, they improved Cantung and brought a new vision to Mactung. Kurt, Dennis and Ron have modernized the Company, extended Cantung's mine life, dramatically increased mill recovery rates, and successfully increased mill throughput at a creaky, old operation. And I think the Company was taken more seriously in the industry because of their involvement and competence. Unfortunately we could not control world markets.

I also wish my best to the recently - resigned Bryce Porter, my guide and mentor during our years together on the Board.

As it has during its financial crises in the past, I hope that North American Tungsten will be able to emerge from the CCAA as a continuing presence in the Dehcho, Sahtu, and Kaska areas of the NWT and Yukon.

Good luck to you all.

DATED at Vancouver, British Columbia, this 23rd day of September, 2015.

A handwritten signature in black ink, reading "Allan Krasnick". The signature is written in a cursive style with a large, sweeping flourish at the end.

ALLAN KRASNICK
