**Subject:** Re: Temporary Bio solids storage facility

Hi Bill,

Thanks very much for this notification. My understanding was that a temporary structure for containing biosolids was already in place (have a read through this [email chain](#) from last summer with former SAO Beth Jumbo), and that funding was in place to build the permanent structure in 2017; I guess that must have changed?

Please note that the Village's Licence requires signed and stamped drawings for any structures intended to contain waste (see Part F) to be submitted to the Board 60 days in advance of construction.

Thank you,

Erica

**Subject:** Temporary Bio solids storage facility

Good afternoon. We find it necessary to install a temporary bio solids facility at the Landfill. It will be the same set up as last year. This should get us through till next summer when a permanent facility will be constructed. Thanks

William C. Bennett

Senior Administrative Officer

Village of Fort Simpson
