---

Hi Beth and Brad,

Thank you for keeping me in the loop, Beth.

I had a quick look at the Village's Licence, and Part D item 9 is what requires the installation of fencing (approved in the Fencing Plan, February 18, 2016) within one year of issuance, which would have been early July.

This condition is to the satisfaction of the Inspector though, so it would be helpful to know from you, Brad, whether you have concerns or issues with a delay in the installation (not yet having a copy of the inspection report, I don't know whether there are any outstanding, fencing-related concerns at the landfill).

Regards,

Erica

**Subject:** Fencing for Landfill

Good Morning Erica,

The Village has had some issues trying to acquire the electric fence material. We have been advised that this will not be provided until the summer of 2017. Can we request an extension on the fencing. We are ordering the deer fence as outlined in the proposed diagram previously submitted to MVLWB.

Beth Jumbo
