To the Bullmoose-Ruth Remediation Project Distribution List;

The Mackenzie Valley Land and Water Board will be hosting a **Technical Workshop on September 9th, 2016** in Yellowknife, to discuss Indigenous and Northern Affairs – Contaminants and Remediation Division’s (INAC-CARD) Applications for a water licence and land use permit for remediation activities in the Bullmoose-Ruth area. The review for these files, with reviewer comments and proponent responses, can be found here:

http://lwbors.yk.com/LWB_IMS/ReviewComment.aspx?appid=10930

The workshop will focus primarily on technical issues related to drafting of a water licence for the project. A draft agenda for the workshop is attached for your review. Please provide any comments you have on the agenda, and RSVP to jmorse@mvlwb.com by **Wednesday, August 24, 2016**. Knowing how many people plan to attend will help us in selecting a venue. A final agenda will be distributed once comments have been received.

Thank you. If you have any questions, please feel free to contact me.

Technical Workshop

**Bullmoose-Ruth Remediation Project – Indigenous and Northern Affairs Canada –
Contaminants and Remediation Division (INAC-CARD)
Water Licence Application
(MV2016L8-0004)**

Date:

September 9, 2016
9:00am start

Location:

To Be Determined, Yellowknife, NT

For those joining via teleconference, please email Julian Morse at jmorse@mvlwb.com for call-in details.

Purpose:

This technical workshop is being held as part of the water licence application process for the Bullmoose-Ruth (BMR) Remediation Project. The workshop is meant to provide a forum where the proponent (INAC-CARD) can present an overview of the BMR Remediation Project to interested parties.

This workshop will provide an opportunity for parties to discuss their technical comments and questions about the water licence application directly with the proponent and its consultants. It is the Board's hope that such a discussion, as facilitated by Board staff, will increase each parties understanding of the technical issues as well as of the perspectives of others. The goal is to garner a better understanding of the BMR project for Board staff and reviewers prior to distribution of a draft water licence for review following the workshop.

Please note that the technical workshop will not be transcribed and Board members and their legal counsel will not be participating. The intent is that the workshop be as informal as possible in order to promote discussion and inform the draft water licence that will be circulated for review.

Agenda:
