Subject: Shut Down For Break Up

Mike:

Pine Point Mining Limited has shut down all drilling activities for the spring break-up. All drill rigs and equipment has been demobilized from the site. Pine Point personnel will be monitoring the drill sites and trails as the melt progresses to ensure all sites are clean and free of any items left under the snow and ice. I will send you a complete set of map(s) of all the drill sites and trails once we have those areas surveyed.

Although plans are still be formulated I expect we will remobilize again in early June as ground condition firm up.

Stan
