To Whom It May Concern:

**Government of the Northwest Territories, Department of Infrastructure**

The Government of the Northwest Territories has approved the creation of the Department of Infrastructure (INF) effective April 1, 2017. The Department of Infrastructure has been created through the amalgamation of the Department of Transportation (DOT) and the Department of Public Works and Services (PWS). This change supports the Government of the Northwest Territories' fiscal strategy and more efficient and effective delivery of government programs and services.

All Land Use Permits and Water Licences currently owned by the Department of Transportation (DOT) and Public Works and Services (PW&S) will now fall under the Department of Infrastructure, effective immediately.
