That is correct Dave.

Take Care,

Nahum

Hi Nahum,

By way of your e-mail, I'm assuming we are good to go with an immediate decant of the Checkpoint Landfarm regardless of the 10 day notice.

Cheers & thank you,  
Dave Abernethy

Thanks Dave,

The Inspector, based on the type of elevated parameters (Cu and pH), and the degree of exceedence (.003mg/L and .1) has no concerns with an immediate decant of the retention pond at Checkpoint. Take care and have a good day.

Regards,

Nahum

**Importance:** High

Good morning Shannon,

Please find attached a letter from our consultant summarizing the sampling done in support of the decant of the Checkpoint Landfarm.

Kind regards,  
Dave Abernethy

Good afternoon Nahum,

Subsequent to our discussion yesterday afternoon regarding Checkpoint, it's new WL parameters, the sample results and the decant, here's a letter from our consultant summarizing the results. Please have a look through at your soonest possible convenience and let me know what your direction is. Hopefully we can decant sooner rather than later.

Cheers & thanks,

Hi Dave/Melanie,

Please find attached the letter with the sampling results from the retention pond at the Checkpoint Landfarm for you to forward on to the Inspector. I should also have the soil sampling results letter to you before the end of this week.

Please let me know if you have any questions.
