---

Mr. Hughes,

Please see the attached letter (pdf) regarding your Land Use Permit (MV2018A0022) and Water Licence (MV2018L1-0005) applications submitted to the MVLWB.

Please contact me if you have any questions or would like to discuss anything further.

Regards,

**Kierney Leach M.Eng**

Dear Mr. Hughes:

**Land Use Permit and Water Licence Application – Incomplete  
Reclamation – Celibeta, NT (H-78)**

The Mackenzie Valley Land and Water Board (MVLWB or the Board) received your Applications dated September 19, 2018 for a Land Use Permit and Water Licence on September 25, 2018. Your Applications have been reviewed and found to be lacking sufficient information to conduct a preliminary screening as per paragraph 22(1)(a) of the *Mackenzie Valley Land Use Regulations* (MVLUR). In order for these Applications to be considered complete and forwarded for review, the following information must be submitted to our office:

1. A Waste Management Plan. Even if the information related to waste and waste management is minimal, a Waste Management Plan for the project is still required (For example, describe how will garbage and sewage be stored on site and handled prior to disposal off-site). A template for developing a Waste Management Plan is attached. The guideline for a Waste Management Plan can be found on our website at:  
[MVLWB's Guidelines for Developing a Waste Management Plan](#)
2. The Application indicates that the proposed winter road will be built on 'Interim Land Withdrawal' land. Further information is required on if discussions were carried out with affected parties and the Government of the Northwest Territories specifically informing them of the proposed use of 'Interim Land Withdrawal' land.
3. With your Water Licence Application, a cheque was submitted combining the Water Licence application fee and the Water Use Fees. These two fees must be submitted as separate cheques and addressed as follows:

A Water Licence application fee of \$30.00, made out to the **Receiver General for Canada**.

Water Use Fees of \$538.20 (299m<sup>3</sup>/day for a maximum of 180 days per year), made out to the **Government of the Northwest Territories**.

4. Board staff encourage you to use the attached worksheet to calculate and provide a closure and reclamation cost estimate for the activities described in your applications. As a Licence application was submitted concurrently with a Land Use Permit Application, please provide a breakdown of costs which would apply to water-related activities versus land-related activities.

Board staff would like to extend an offer to you to further discuss the information requirements at your convenience.

Upon receipt of this information, the Applications will be reviewed in accordance with the *Mackenzie Valley Resource Management Act*. For further assistance, please refer to "Guide To Completing Land Use Permit Applications to the Mackenzie Valley Land and Water Board" available on our website at [www.mvlwb.com](http://www.mvlwb.com) under "Apply for Permit/Licence" and "Forms and Guides".

If this supplementary information is not provided within 90 days, then it shall be assumed that you do not wish to continue with the processing of the Land Use Permit Application, and the Application will be returned to you as per Section 25 of the MVLUR.

If you have any questions or concerns, please contact me at (867) Kierney Leach or email [kleach@mvlwb.com](mailto:kleach@mvlwb.com).

Yours sincerely,

Kierney Leach  
Technical Regulatory Specialist
