Subject: Pine Point Mines Land Use Permit
Date: Thursday, April 19, 2018 9:13:58 AM

The Hay River Chamber has seen economic activity and spin off of work in the South Slave Region due to the Pine Point activity. This is benefitting many of our members and is greatly needed in our Region. The development of this project will have far reaching effects for long term prosperity and creating new employment for Hay River and the Northwest Territories. The Hay River Chamber is in Strong Support of this project and looking forward to having a Land Use Permit and Type B Water License Granted for this ongoing Project .

Warmest Regards,
Joseph Melanson
President Hay River Chamber
